COMMITTEE RECOMMENDATION

The Planning & Zoning Commission in a 6 to 0 vote recommended **approval** of the zone change. However, one (1) commissioner abstained from the vote.

STAFF RECOMMENDATION

Staff **supports** the proposed zone change for the following reasons:

1. The proposed zone change is in conformance with the predominant Comprehensive Plan's designation as Low Density Residential (R-1, R-1-MH, R-1A, R-1B, R-S, B-1R, and R-O), which includes R-1B zoning districts.
2. The proposed zone change meets the Laredo Land Development Code, Section 24.65.9, R-1B Single Family High Density District requirement, stating R-1B zoning districts shall be for new subdivision developments.
3. The proposed zone change is in character with the surrounding land uses. The property abuts residential uses to the north and east of the site.

Staff **supports** the application.

R-1B. The purpose of the R-1B (Single Family High Density District) is to provide for residential uses and those public uses normally considered an integral part of the residential neighborhood they serve. In addition, this district provides for the subdivision of single family residential lots with a minimum of 3,000 square feet.

Is this change contrary to the established land use pattern?

No. There are residential uses to the north and east of the site.

Would this change create an isolated zoning district unrelated to surrounding districts?

Yes. The proposed zone change will create an isolated zoning district.

Will change adversely influence living conditions in the neighborhood?

No. it is not anticipated to have a negative impact in the surrounding area or neighborhood

Are there substantial reasons why the property cannot be used in accordance with existing zoning?

Yes. The existing zones do not allow for a single family high density residential uses intended by the applicant.
