Quality Improvement and Access Fund

Part A Policy and Procedure

Policy Statement

The Office of Population Affairs (OPA) has identified Title X program priorities that ensure “innovative high-quality family planning and related health services that will improve the overall health of individuals, couples, and families.” OPA emphasizes that Title X providers “offer a broad range of family planning and related health services that are tailored to the unique needs of the individual, that include natural family planning methods (also known as fertility awareness-based methods), which ensure breadth and variety among family planning methods offered.”

In order to improve the quality of services, increase the number of clients served, and to support optimal health outcomes, Every Body Texas has created the Quality Improvement and Access (QIA) Fund. This fund will enable Every Body Texas Title X sub-recipients to provide a variety of family planning methods and to implement quality improvement strategies.
