3 Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided, <https://www.ethics.state.tx.us/tec/1295-Info.htm>. Implementation of House Bill 1295 Certificate of Interested Parties (Form 1295): In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016. The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295. Filing Process: Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract. The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency. Information regarding how to use the filing application will be available on this site starting on January 1, 2016. Additional Information: HB 1295 Certificate of Interested Parties (Form 1295) New Chapter 46, Ethics Commission Rules: 46.1. Application 46.3. Definitions 46.5. Disclosure of Interested Parties Form In order to comply with state law the Certificate of Interested Parties (Form 1295) must be submitted to the Texas Ethics Commission within 10 days upon receiving notice of award of contract. This form must be submitted within the allotted time otherwise this may result in the cancellation of the contract.

34.0 Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided.
<https://www.ethics.state.tx.us/tcc/1295-Info.htm>.

Implementation of House Bill 1295

34.1 Certificate of Interested Parties (Form 1295):

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

34.2 Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

1.5 CONFLICT OF INTEREST FORMS (This is submitted through Cit-E-Bid system) Conflict of Interest Disclosure: A form disclosing potential conflicts of interest involving counties, cities, and other local government entities may be required to be filed after January 1, 2006, by vendors or potential vendors to local government entities. The new requirements are set forth in Chapter 176 of the Texas Local Government Code added by H.B. No. 914 of the last Texas Legislature.

1.6 TEXAS ETHICS COMMISSION (Form 1295, Form can be downloaded and submitted through Cit-E-Bid system) Certificate of Interested Parties (Form 1295) Implementation of House Bill 1295: In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the state of Texas website, please use this link provided, <https://www.ethics.state.tx.us/tec/1295-Info.htm>. In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016. In order to comply with state law the Certificate of Interested Parties (Form 1295) must be submitted to the Texas Ethics Commission within 10 days upon receiving notice of award of contract. This form must be submitted within the allotted time otherwise this may result in the cancellation of the contract.

Changes to Form 1295:

Changes to the law requiring certain businesses to file a Form 1295 are in effect for contracts entered into or amended on or after January 1, 2018. The changes exempt businesses from filing a Form 1295 for certain types of contracts and replace the need for a completed Form 1295 to be notarized. Instead, the person filing a 1295 needs to complete an "unsworn declaration."

Implementation of House Bill 1295 Certificate of Interested Parties (Form 1295): In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract. The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. 34.0 Certificate of Interested Parties (Form 1295)

In an effort to comply with state law the certificate of interested parties must be filled out once a vendor has been granted a contract. All of this information can be found on the State of Texas website, please use this link provided,
<https://www.ethics.state.tx.us/tec/1295-Info.htm>.

Implementation of House Bill 1295

34.1 Certificate of Interested Parties (Form 1295)

In 2015, the Texas Legislature adopted House Bill 1295, which added section 2252.908 of the Government Code. The law states that a governmental entity or state agency may not enter into certain contracts with a business entity unless the business entity submits a disclosure of interested parties to the governmental entity or state agency at the time the business entity submits the signed contract to the governmental entity or state agency. The law applies only to a contract of a governmental entity or state agency that either (1) requires an action or vote by the governing body of the entity or agency before the contract may be signed or (2) has a value of at least \$1 million. The disclosure requirement applies to a contract entered into on or after January 1, 2016.

The Texas Ethics Commission was required to adopt rules necessary to implement that law, prescribe the disclosure of interested parties form, and post a copy of the form on the commission's website. The commission adopted the Certificate of Interested Parties form (Form 1295) on October 5, 2015. The commission also adopted new rules (Chapter 46) on November 30, 2015, to implement the law. The commission does not have any additional authority to enforce or interpret House Bill 1295.

34.2 Filing Process:

Starting on January 1, 2016, the commission will make available on its website a new filing application that must be used to file Form 1295. A business entity must use the application to enter the required information on Form 1295 and print a copy of the completed form, which will include a certification of filing that will contain a unique certification number. An authorized agent of the business entity must sign the printed copy of the form and have the form notarized. The completed Form 1295 with the certification of filing must be filed with the governmental body or state agency with which the business entity is entering into the contract.

The governmental entity or state agency must notify the commission, using the commission's filing application, of the receipt of the filed Form 1295 with the certification of filing not later than the 30th day after the date the contract binds all parties to the contract. The commission will post the completed Form 1295 to its website within seven business days after receiving notice from the governmental entity or state agency.

Information regarding how to use the filing application will be available on this site starting on January 1, 2016.

MICHELIN RETREAD TECHNOLOGIES RETREAD PROCESS

RETREAD PROCESS

- 1** Initial Inspection
- 2** X-Ray Inspection
- 3** Buffing
- 4** Casing Integrity Analyzer® (CIA)
- 5** Repairs
- 6** Tread Building
- 7** Double-Enveloping
- 8** Curing
- 9** Final Inspection

100% OF CASINGS RECEIVE AN INITIAL INSPECTION.

THE GRAZING LIGHT PROCESS

- Specific lighting standards are required in all plants
- Fluorescent light is grazed over a relaxed casing to expose internal damage indicators such as fatigued casing cables caused by under inflation (zippers).

ELECTRONIC LINER INSPECTION

- Detects nail holes or small penetrations in the liner of the casing invisible to the naked eye. The electronic liner inspection is very accurate and precise. The casing rotation speed is limited to maximize the capabilities of the electronics.

THE SUMMARY

- Casing damages are identified for repair or X-Ray inspection using both the grazing light and electronic liner inspection

FLEET BENEFITS – MICHELIN ADVANTAGE

- Reduced operating costs through maximized casing usage – damages are correctly identified for repair
- Reduces potential future road downtime incidents by properly identifying casing liner defects before the retread is produced.

X-RAY INSPECTION

STEP 2

X-RAY INSPECTION IS USED WHEN INITIAL OR FINAL INSPECTION IDENTIFIES AN ANOMALY THAT REQUIRES ADDITIONAL ANALYSIS.

Photographic image available for customer information

THE PROCESS

- Required in all MRT franchise facilities
- Any casing suspected of sidewall or bead damage due to hazards such as curbing, impacts, and fatigue is X-Rayed
- Additionally, existing repairs in the casing can be verified for integrity.

FLEET BENEFITS – MICHELIN ADVANTAGE

- Reduced cost through maximum casing recovery - guess work rejections eliminated.
- Suspected cord damage is verified so only the appropriate casings are rejected
- Reduces potential future road downtime incidents by properly identifying casing defects before the retread is produced.

ALL MRT BUFFERS ARE FULLY COMPUTER-CONTROLLED WHICH ALLOWS FOR HIGHLY ACCURATE MEASUREMENT AND ALIGNMENT OF THE OF THE CASING PRIOR TO BUFFING.

THE PROCESS

- The buffer is computer controlled for accurate measurement and buffing of the casing in order to create a retread that matches the specifications of the corresponding new tire as closely as possible.
- The buffer employs a software database using over 1,000 customized programs to insure that each tire is buffed precisely by casing brand, size and model.
- To help keep the tire running cooler, accurate under tread thickness is determined by an under tread measuring device that was developed by Michelin. Note: More under tread equals more heat buildup in a running tire.
- Side-to-side (radial) buffing is used to create "crepe-like" contact surface to maximize adhesion.
- Unique to MRT - sidewall brushes are used to reduce potential surface contamination resulting in a better retread bond.

FLEET BENEFITS – MICHELIN ADVANTAGE

- Long-lasting tread due to precise contact dimensions for tread, and highly receptive creped surface for the adhesion of the tread, along with reduced contamination from the brushed sidewalls
- A consistent buff contour reduces the potential for irregular wear and produces a smoother ride.
- Precise under tread thickness allows for cooler running (fuel economy) and reduced casing fatigue.

CASING INTEGRITY ANALYZER® (CIA)

STEP 4

**ALL CASINGS ARE ANALYZED FOR CROWN
AND BELT EDGE SEPARATIONS USING LASER
SHEAROGRAPHY IN CONJUNCTION WITH
PROPRIETARY ACE™2 (AUTOMATIC CASING
EVALUATION) SOFTWARE DEVELOPED BY
MICHELIN.**

Inspections are post buff to insure separations identified are in the belt package only and not in the remaining tread rubber.

THE PROCESS

- The casing undergoes laser analysis or shearography in the CIA
- Proprietary ACE™2 software helps operator identify anomalies or trapped air, which points to casing crown and belt separations not externally visible.
- Printed picture available for RAR's.

FLEET BENEFITS – MICHELIN ADVANTAGE

- By eliminating the guesswork about the condition of the casing regardless of the number of repairs or age, fleets can reduce the loss of usage casings.
- Reduces rejected casings
- Reduces casing failures and road downtime/emergency road service costs.

**MRT USES A STRONG THERMAL CURE REPAIR
RATHER THAN A WEAKER CHEMICAL CURE
REPAIR TECHNIQUE.**

THE PROCESS

- The patches use an uncured rubber backing for a better bond over the injury
- Thermal curing, along with mechanical pressure from both sides through the double-enveloping method insures strong adhesion of the repair.
- Tight specifications on repair location and adherence to maximum injury dimensions

FLEET BENEFITS – MICHELIN ADVANTAGE

- Maximized casing life with a fully bonded repair
- Reduced emergency road service
- Proper repairs increase overall casing life.

TREAD BUILDING

STEP 6

THE TREAD BUILDER APPLIES AN EXTRUDED BONDING AGENT CALLED CUSHION GUM AND THE PRE-MOLD TREAD RUBBER TO THE CASING.

THE PROCESS

- All new tread components are applied at the builder essentially at the same time
- Cushion to Casing™ (CTC) extrudes heated cushion gum over the buffed casing crown, filling in skives and “buzz-outs” to create a uniform bonding surface that allows for strong tread adhesion.
- The MRT Undertread Measuring Device finds the proper point on the casing circumference to position the thicker, heavier splice to improve tire balance
- The Builder uses the buffed circumference measurement to precisely cut the proper tread length minimizing stretching or compressing of the tread rubber
- Uses MICHELIN® patented new tire tread patterns, rubber compounds and technology.

FLEET BENEFITS – MICHELIN ADVANTAGE

- A finished product that is well balanced reducing irregular tread wear and ride complaints
- CTC provides strong bond on buffed crown for fewer retread failures due to unfilled skives in the crown that lead to downtime.
 - The lack of tread compression or stretching results in less tread lifting and less downtime
 - Long lasting tread life due to Michelin tread technology (lower cost per mile)

**PRIOR TO CURING, RETREADED TIRE
IS ENCASED IN BOTH AN INNER AND
OUTER ENVELOPE**

THE PROCESS

- The retreaded tire is double enveloped and placed under a vacuum
- The vacuum seal of the double envelope system creates mechanical pressure on the tread from the outside and repair(s) on the inside thereby helping to create a stronger bond.
- Envelope provides pressure to enhance tread and repair curing

FLEET BENEFITS – MICHELIN ADVANTAGE

- Michelin's unique use of the inner envelope enhances repair by applying mechanical pressure to both sides of the repair, making for a stronger repair and thereby increasing tire life and reducing downtime

THE RETREAD IS CURED IN A SOPHISTICATED, HEAT CONTROLLED AND COMPUTER MONITORED CHAMBER

THE PROCESS

- The MRT chamber uses a uniquely engineered heat source derived from Steam/Hot Water which ensures a more consistent curing temperature than that of electric chambers. A uniform chamber temperature reduces to number of over and under cures.
- Additional temperature consistency is achieved by computer controlled heat-mapping and mechanical adjustments
- Tires enter chamber and are cured approximately 90 to 120 minutes - reducing exposure to degrading heat

FLEET BENEFITS – MICHELIN ADVANTAGE

- Maximum casing/tread life due to reduced heat exposure and even curing

**CASINGS ARE INSPECTED PRIOR TO
BEING SENT BACK TO THE CUSTOMER.**

THE PROCESS

- Casings are inspected hot, so anomalies are more apparent
- Thorough inspection – crown, sidewall, bead, interior
- All customer specifications verified (CAM specs)
- X-Ray and CIA® available to check and/or audit

FLEET BENEFITS – MICHELIN ADVANTAGE

- Reduced down-time and cost from a tire that fully meets fleet specifications every time
