### COMMITTEE RECOMMENDATION

The Planning and Zoning Commission in a 5 to 0 vote recommended approval of the zone change.

### STAFF RECOMMENDATION

Staff **supports** the proposed zone change for the following reasons:

1. The proposed zone change is in conformance with the Comprehensive Plan’s designation as High

Density Residential (R-3, R-2, B-1R, B-1 R-O), which includes B-1 zoning districts.

2. The commercial designation is well suited to the site, given its proximity to the existing communication tower.
3. The proposed zone change is appropriate at this location since the property abuts B-1 zoning to the north of the site.
4. There is a transition of commercial uses at this location since the property abuts higher intense zones and there are B-1 zoning districts within the vicinity of the site.

Notice to the owner/applicant:

1. The approval of the zone change does not guarantee the issuance of a building permit and requires full compliance with all applicable municipal codes and regulations.

## IMPACT ANALYSIS

**B-1.** The purpose of the B-1 Limited Business District is to provide for business and commercial development serving a limited geographic area or neighborhood.

### **Is this change contrary to the established land use pattern?**

No. There are commercial uses within the vicinity of the site.

### **Would this change create an isolated zoning district unrelated to surrounding districts?**

No. The proposed zone will not create an isolated zoning district. There is a B-1 zoning district to the north of the site.

### **Will change adversely influence living conditions in the neighborhood?**

No. The proposed zone change is not anticipated to have a negative impact with the surrounding area or neighborhoods. The property is abutting an existing communication tower.

### **Are there substantial reasons why the property cannot be used in accordance with existing zoning?**

Yes. The existing zone does not allow for a commercial use as intended by the applicant.
