Laredo Resident Survey

The City of Laredo is undertaking the City's Consolidated Planning process. This study is undertaken every five years to help the City determine the needs in the community and how they can be addressed with federal resources, i.e. Community Development Block Grant (CDBG), HOME Investment Partnerships Program (HOME), and Emergency Solutions Grant (ESG). These funds provide the City of Laredo with the opportunity to invest in housing, community facilities, public services, and homelessness prevention initiatives.

As part of this process, the City of Laredo is also undertaking efforts to Affirmatively Further Fair Housing in your community. This effort includes the development of a fair housing plan. This study takes a detailed look at access to housing in Laredo, as well as any barriers to access, and how the City of Laredo and other agencies can help mitigate any barriers to housing access.

We would like your help! We need input from the community to get a better understanding of what you see as the needs in your area and how we can help address those needs. Please take a few moments to complete this short survey.
