### COMMITTEE RECOMMENDATION

The Planning & Zoning Commission in a 7 to 0 vote recommended **approval** of the zone change.

### STAFF RECOMMENDATION

Staff **supports** the proposed zone change for the following reasons:

1. The proposed zone change is in conformance with the Comprehensive Plan's high density residential designation and definition as *"a neighborhood whose character is primarily defined by multi-family residential building types, but can also include single family homes in small lots and*

*neighborhood serving businesses"* as it supports the Comprehensive Plan's vision of mixed residential uses and infill development.

2. The proposed zone change will only introduce single-family uses and is not anticipated to have a negative impact in the surrounding area since the property is predominantly surrounded by residential uses.
3. The proposed use is in character and complements the surrounding land uses. The site is primarily surrounded by residential uses to the west, north, and south of the site.
4. The proposed use will introduce similar uses to the existing uses in the surrounding area.

Please see the attached proposed preliminary plat for reference.

General Comments:

1. The approval of the zone change does not guarantee the issuance of the building permit, certificate of occupancy, or any other permit which may be required.
2. Any use allowed under the current zone or proposed zone change is required to abide by all relevant municipal codes.

Staff **supports** the application.

**R-1A.** The purpose of the R-1A (Single Family Reduced Area District) is to provide for residential uses and those public uses normally considered an integral part of the residential neighborhood they serve. In addition, this district provides for the subdivision of single family residential lots with a minimum of 4500 square feet.

**Is this change contrary to the established land use pattern?**

No. There are similar uses to the north, west, and south of the site.

**Would this change create an isolated zoning district unrelated to surrounding districts?**

Yes. The proposed zone change will create an isolated zoning district).

**Will change adversely influence living conditions in the neighborhood?**

No. It is not anticipated to have a negative impact with the surrounding area or neighborhoods

**Are there substantial reasons why the property cannot be used in accordance with existing zoning?**

Yes. The existing zones do not allow for single family reduced area residential uses intended by the applicant.
