#### **COMMITTEE RECOMMENDATION**

The Planning and Zoning Commission in a 7 to 0 vote recommended approval of the zone change.

#### STAFF RECOMMENDATION

Staff **supports** the proposed zone change for the following reasons:

- 1. The proposed zone change is appropriate at this location since the property abuts R-1B zoning to the north and east of the site.
- 2. The proposed use complements and is in character with the surrounding uses. The site is primarily surrounded by single-family residential uses to the north and east.
- 3. The proposed zone change meets the Laredo Land Development Code, Section 24.65.9, R-1B Single-Family High-Density District requirement, stating R-1B zoning districts shall be for new subdivision developments.
- 4. Although, the proposed zone change is not in conformance with the Comprehensive Plan's designation as Agricultural Rural, the proposed use is not anticipated to have a negative impact in the surrounding area due to the similar uses surrounding the site.

#### **General Comments:**

- 1. The approval of the zone change does not guarantee the issuance of the building permit, certificate of occupancy, or any other permit which may be required.
- 2. Any use allowed under the current zone or proposed zone change is required to abide by all relevant municipal codes.

## **IMPACT ANALYSIS**

**R-1B.** The purpose of the R-1B (Single Family High Density District) is to provide for residential uses and those public uses normally considered an integral part of the residential neighborhood they serve. In addition, this district provides for the subdivision of single family residential lots with a minimum of 3,000 square feet.

## Is this change contrary to the established land use pattern?

No. The proposed site abuts a large area of single-family high-density residential uses to the north and east.

### Would this change create an isolated zoning district unrelated to surrounding districts?

No. The proposed zone will not create an isolated zoning district. There are R-1B zoning districts within the immediate vicinity of the proposed site.

# Will change adversely influence living conditions in the neighborhood?

No. The proposed zone change is not anticipated to have a negative impact with the surrounding area or neighborhoods.

Are there substantial reasons why the property cannot be used in accordance with existing zoning? Yes. The existing zone does not allow for single family high density residential uses intended by the applicant.
