PREVIOUS COUNCIL ACTION

On February 7, 2000, City Council approved the conditional use permit for a Police Substation.

On November 3, 2025, City Council approved the conditional use permit amendment to allow an Animal Care Substation (Office).

On June 15, 2026, City Council made a motion to introduce the item.

BACKGROUND

Council District: I – Cm. Gilbert Gonzalez

Proposed use: The proposed use is an Animal Care Substation.

- The original approval for the site consisted primarily of an office use associated with limited animal care operations.
- Due to the proposed expansion of animal confinement activities, the applicant is concurrently pursuing a zone change request in order to establish the appropriate underlying zoning district necessary to accommodate the proposed Conditional Use Permit overlay to allow the animal confinement use.

Site: The site is occupied by an Animal Care Substation (Office).

Surrounding land uses: To the north of the site is residential uses. To the east of the site is residential uses, Triumph Public High School - Laredo South, and Lucy Avenue. To the south of the site is Sierra Vista Boulevard, vacant land, residential uses, and Nuestra Señora Del Rosario Catholic Church. To the west of the site is Ceniso Loop, Webb County of Sierra Vista, and residential uses.

Comprehensive Plan: The Future Land Use Map recognizes this area as Low Density Residential.

COMMITTEE RECOMMENDATION

The Planning & Zoning Commission in a 5 to 0 vote recommended **approval** of the proposed zone change.

STAFF RECOMMENDATION

Staff **supports** the proposed zone change for the following reasons:

1. The substation will provide a designated location for the care, intake, and placement of stray animals within the area, contributing to improved public safety, animal welfare, and a more secure neighborhood environment.
2. The proposed zone change is appropriate at this location since the property abuts B-1 zoning to the east of the site.
3. The proposed zone will not create an isolated zoning district.

Notice to the owner/applicant:

1. The approval of the zone change does not guarantee the issuance of a building permit and requires full compliance with all applicable municipal codes and regulations.

Staff **supports** the application.

B-1. The purpose of the B-1 (Limited Business District) is to provide for business and commercial development serving a limited geographic area or neighborhood.

Is this change contrary to the established land use pattern?

There are no similar uses in the area. There are residential uses to the north, east, south, and west of the site. To the east of the site is a public high school.

Would this change create an isolated zoning district unrelated to surrounding districts?

No. There is a B-1 zoning district to the east of the site.

Will change adversely influence living conditions in the neighborhood?

It may be anticipated to have a negative impact to the surrounding neighborhood and area.

Are there substantial reasons why the property cannot be used in accordance with existing zoning?

Yes. The existing R-1 does not allow for Animal Care Substation as intended by the applicant.

1. Level of Alignment

- Strong
 Moderate – Indirectly supports or contributes to the intent of a verbatim goal or policy.
 Weak/None
-

2. Supporting Goal(s)/Policy(ies)

Goal 7.1

“All residents have access to a variety of health services that support their well-being.”

Page 321

Source: *Viva Laredo City of Laredo Comprehensive Plan*

Relevance:

The proposed Animal Care Substation contributes to public health and neighborhood well-being through the intake, care, and placement of stray animals. The facility supports community safety and animal welfare services, which indirectly contributes to the health and well-being objectives of the Comprehensive Plan.

Policy 6.1.1

“Encourage development that is compatible with surrounding land uses and contributes to a cohesive urban form.”

Page 285

Source: *Viva Laredo City of Laredo Comprehensive Plan*

Relevance:

The proposed rezoning introduces a limited business district adjacent to existing residential uses and a public high school. While the proposal expands an existing governmental/community-serving function and abuts existing B-1 zoning to the east, the staff report acknowledges the potential for adverse impacts on surrounding living conditions. Therefore, the proposal only partially aligns with this policy.

Goal 1.1

“Encourage the efficient use of land and resources in Laredo through appropriate infill, redevelopment, and coordinated growth patterns.”

Page 45

Source: *Viva Laredo City of Laredo Comprehensive Plan*

Relevance:

The proposal represents the adaptive reuse and expansion of an existing public service facility within a developed urban area, supporting efficient land utilization rather than expansion into undeveloped areas.

3. Summary of Alignment

The proposed rezoning from R-1 to B-1 for an Animal Care Substation demonstrates **moderate alignment** with the *Viva Laredo Comprehensive Plan*. The request supports broader public service and community well-being objectives by providing a designated location for animal care, intake, and placement activities, thereby contributing to neighborhood safety and public welfare in alignment with **Goal 7.1**.

The proposal also advances **Goal 1.1** through the continued use and expansion of an existing facility within an already developed area. Additionally, the existence of adjacent B-1 zoning reduces concerns regarding the creation of an isolated zoning district.

However, the Future Land Use Map identifies the area as **Low Density Residential**, and the staff report acknowledges that the proposal “may be anticipated to have a negative impact to the surrounding neighborhood and area.” The proximity to residential uses and a public high school raises compatibility concerns under **Policy 6.1.1**, preventing the proposal from achieving strong alignment.

The request intersects with broader planning themes including **public safety, community services, animal welfare, and land use compatibility**.

COMMITTEE RECOMMENDATION

The Planning & Zoning Commission in a **7** to **0** vote recommended **approval** of the proposed zone change.

STAFF RECOMMENDATION

A Conditional Use Permit is intended to provide for those land uses where additional regulation is necessary to protect the property and surrounding area. It is primarily intended for property located in older section of the city and is intended to promote development and/or redevelopment of such property, which is consistent with the land use patterns of surrounding property.

Staff **supports** the proposed conditional use permit amendment for the following reasons:

1. The substation will provide a designated location for the care, intake, and placement of stray animals within the area, contributing to improved public safety, animal welfare, and a more secure neighborhood environment.
2. The Conditional Use Permit (CUP) overlay provides an opportunity to regulate the use through enforceable conditions that ensure compatibility between the proposed use and surrounding residential neighborhoods.

General Comments:

1. The approval of the conditional use permit does not guarantee the issuance of the building permit and requires full compliance with all applicable municipal codes and regulations.

If approved, Staff suggests the following conditions

1. The primary use shall serve as an Animal Care Substation (~~Office~~).
2. The Conditional Use Permit is restricted to Exhibit A, which is made part hereof for all purposes.
3. The kennel structure shall consist of a single large enclosure, as shown in the attached

Exhibit A, up to a total of 880 square feet.

4. The kennel structure shall consist of a combination of indoor and outdoor enclosures. One (1) indoor enclosure and one (1) outdoor enclosure shall be considered as one (1) kennel.

5. The use of each kennel shall be limited to one (1) animal at a time, with a maximum of ~~four~~ (4) fourteen (14) kennels permitted in total. An exception shall apply in the case of a mother with her litter, which will be considered as one (1) animal.

6. There shall be no more than ~~four~~ (4) fourteen (14) animals on site, with the exception of a mother with their litter, which will be considered as one (1) animal.

7. Kennels shall be sized and spaced appropriately to allow the animal to stand, turn around, and lie down in a natural position.

~~8. The proposed use shall not house animals overnight. Long term boarding or sheltering shall be prohibited on site.~~

~~9. The outdoor enclosure of the kennel shall be used for animal relief accommodations purposes only. Outdoor confinement shall be prohibited. Outdoor confinement of animals shall be permitted only between the hours of 8:00 a.m. and 5:00 p.m. All animals shall remain indoors after 5:00 p.m.~~

10. The kennel structure location shall not abut the residential property to the north.

11. The operating characteristics of the use shall not create a nuisance and the impacts of the use on surrounding properties shall be minimized with respect to noise, odors, and any other similar conditions.

~~12. The property shall remain staffed and monitored during operational hours to ensure proper animal care and safety, only if there are animals on premise.~~

14. There shall be adequate ventilation systems on site.

15. Lighting of property shall be screened to avoid adverse impact on adjacent residential neighborhoods.

16. Landscaping shall be provided and maintained for the complete duration in accordance with the City of Laredo Land Development Code.

20. On-site parking shall be provided in accordance with the City of Laredo Land Development Code.

21. The proposed use shall not exceed the "Occupant Load" as set forth in the Certificate of Occupancy with Occupant Load issued to the CUP business holder.

22. The proposed use shall, during all hours of operation, maintain, free from obstruction or impediment to full instant use in the case of fire or other emergency, all exit accesses, exits or exit discharges.

24. All permits, licenses, certifications and inspections required by the codes and ordinances of the City of Laredo shall be kept up to date and current including but not limited to: a. Food Manager License (annual), b. Food Handler's Permit (annual), c. Certificate of Occupancy with Occupant Load. Occupant Load being the approved capacity of a building or portion thereof.

IMPACT ANALYSIS

Would this change create an isolated zoning district unrelated to surrounding districts?

The zoning will not change.

Will change adversely influence living conditions in the neighborhood?

It may be anticipated to have a negative impact to the surrounding neighborhood and area.

Are there substantial reasons why the property cannot be used in accordance with existing zoning?

Yes. The existing R-1 does not allow for Animal Care Substation as intended by the applicant.

Proposed Conditional Use Permit Amendment & Zone Change Request

The purpose of this request is to amend the existing Conditional Use Permit (CUP) and request a corresponding zone change to allow for the continued operation and expansion of an Animal Care Substation at the subject property.

The proposed primary use of the property shall be identified as an "Animal Care Substation." The facility is intended to support municipal animal care operations through temporary daytime animal holding, field response coordination, and related administrative functions associated with animal welfare and public safety services.

The proposed operation will consist of an office structure and modular confinement area totaling up to 800 square feet, consistent with the updated site plan provided by Engineering.

The proposed facility will include a maximum of fourteen (14) kennels and fourteen (14) animals, consisting of the following:

- Four (4) indoor kennels located within the office structure designated for cats; and
- Ten (10) outdoor kennels located within the modular confinement area designated for dogs or other animals.

The facility is intended to support daily animal care operations, field response coordination, and short-term animal holding associated with municipal animal services and will not function as a long-term boarding facility. Outdoor animal confinement activities shall only occur between the hours of 8:00 a.m. and 5:00 p.m. After 5:00 p.m., all animals shall be kept indoors.

As reflected in the updated site plan and discussed during the meeting with staff, the following site conditions are proposed:

- The fence adjacent to the residential property located to the north shall remain at a height of six (6) feet.
- The fence along the east property line shall maintain a minimum height of seven (7) feet.
- The previously proposed condition prohibiting overnight and long-term boarding shall be removed.
- The previously proposed condition requiring staff to be present at all times shall be removed.

The requested zoning amendment and CUP modification are intended to allow the City to continue providing animal care and field support services in a manner that is compatible with surrounding properties while maintaining operational safeguards discussed with Planning staff.

This narrative is submitted to accurately reflect the revisions and conditions discussed during the meeting and to support concurrent review of the Conditional Use Permit amendment and zone change application before the Planning & Zoning Commission and City Council.

Thank you for your consideration.

City Council Agenda Item ZC-077-2025

(Conditional Use Permit Amendment to allow an **Animal Care Substation Office** at 140 Ceniso Loop)

1. Level of Alignment

Moderate – The proposed amendment indirectly supports comprehensive plan policies related to **adaptive reuse, neighborhood services, and orderly development**, but it also introduces potential conflicts with residential compatibility and land use intent. The **Future Land Use Map** designates the area as **Low Density Residential**. While the proposed office use can be conditioned to minimize impacts, it is not a land use envisioned in this designation.

2. Supporting Goal(s)/Policy(ies)

- **Policy 1.2.1 (Land Use Patterns)** – *“Maintain the integrity of existing residential neighborhoods by preventing encroachment of incompatible land uses.”*
Viva Laredo City of Laredo Comprehensive Plan, p. 1.27.
Relevance: The proposal abuts residential uses on all sides. Strict conditions (e.g., limiting outdoor kennels, restricting overnight stays, requiring screening) are needed to mitigate compatibility concerns and preserve neighborhood integrity.
 - **Policy 5.1.3 (Housing)** – *“Encourage adaptive reuse of existing vacant buildings to strengthen neighborhoods and provide opportunities for compatible uses.”*
Viva Laredo City of Laredo Comprehensive Plan, p. 5.31.
Relevance: The project repurposes a vacant police substation into an office use, consistent with encouraging reuse of existing structures rather than leaving them vacant or underutilized.
 - **Policy 7.2.1 (Health)** – *“Promote community health and well-being through facilities and services that improve safety and living conditions.”*
Viva Laredo City of Laredo Comprehensive Plan, p. 7.22.
Relevance: An animal care substation can support broader public health by improving animal control and care services, indirectly enhancing neighborhood safety.
-

3. Summary of Alignment

The proposed **Animal Care Substation Office** partially supports Viva Laredo goals by reusing a vacant building, providing a city service in proximity to neighborhoods, and contributing to public health initiatives. However, the location within a **Low Density Residential** designation creates tension with policies designed to preserve neighborhood character.

Alignment is best categorized as **Moderate**: supportive of adaptive reuse and health goals, but requiring stringent conditions to prevent incompatibility with surrounding residential uses. The use is acceptable only under a **Conditional Use Permit** with restrictions that safeguard residents from noise, odors, and nuisances.

Intersections with broader planning themes:

- **Public Health** – Advances animal care services and community safety.
 - **Equity** – Provides decentralized services closer to residential communities.
 - **Sustainability** – Supports adaptive reuse of existing infrastructure.
 - **Compatibility** – Requires ongoing monitoring to avoid undermining residential quality of life.
-

IMPACT ANALYSIS

ZC-105-99

B-1 (Limited Business District): The purpose of the B-1 is to provide for business and commercial development serving a limited geographic area or neighborhood.

Is this change contrary to the established land use pattern?

No, land surrounding this site, along Sierra Vista Blvd., is vacant land. The established land use pattern surrounding this pocket of vacant land is single family residential.

Would this change create an isolated zoning district unrelated to surrounding districts?

Yes, there are no adjacent B-1 zoning. The adjacent zoning district is R-1.

Will change adversely influence living conditions in the neighborhood?

No, the proposed use of a police substation will service the surrounding development.

Are there substantial reasons why the property can not be used in accord with existing zoning?

A police substation is not a permitted use in a R-1 zoning district.

Subject: Request for Conditional Use Permit Change

From: Police Substation

To: Animal Services Substation with 3–5 Outdoor Kennels

To Whom It May Concern:

We respectfully request a change in the conditional use permit for the property currently designated for a police substation. We propose to repurpose this location as an Animal Services Substation, which will include 3 to 5 outdoor kennels for temporary animal containment.

Purpose of Change:

This substation will significantly improve animal control response times in the surrounding area, which currently records the highest volume of animal-related service calls. Having a local base will allow officers and animal service staff to respond more quickly and efficiently, ensuring community safety and animal welfare. The existing building will service as office areas for up to 3 animal services officers.

Operational Notes:

- The facility will not house animals overnight.
- The outdoor kennels will be used only for short-term, temporary holding of animals during active field operations.
- No long-term boarding or sheltering will occur on-site.
- The property will remain staffed and monitored during operational hours to ensure proper animal care and noise management.

We believe this change supports the public interest and improves essential services in a high-need area, while maintaining neighborhood compatibility.

Thank you for your consideration.

Sincerely,

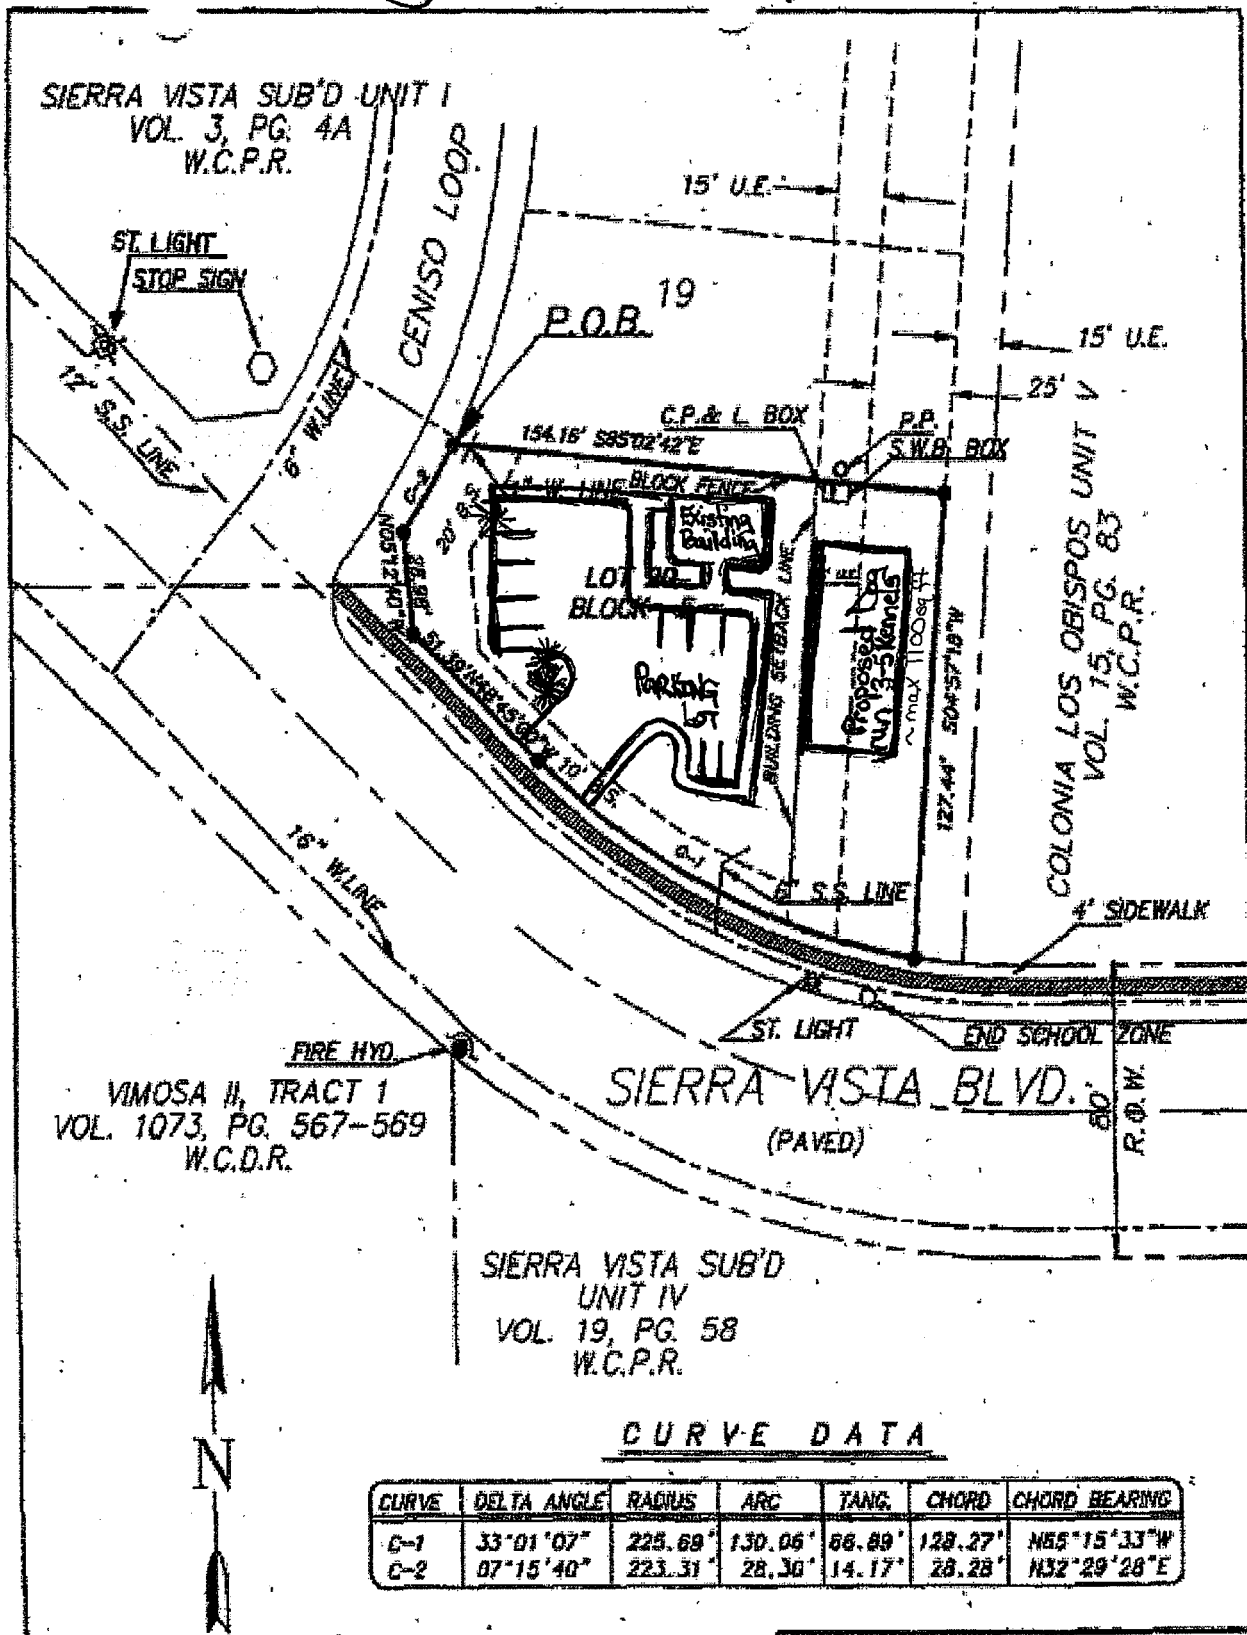

Lauren C. Bluestone

SUBJECT

2025-O-223 amending the Zoning Ordinance (Map) of the City of Laredo by amending Ordinance Number 2000-O-026, which authorized a conditional use permit for a Police Substation Lot 20, Block 5, Sierra Vista Police Station Plat, located at 140 Ceniso Loop in order to change the use of the property to an Animal Care Substation (Office).

ZC-077-2025

District I

PREVIOUS COUNCIL ACTION

On October 20, 2025, City Council introduced the item.

On February 7, 2000, City Council approved the conditional use permit for a Police Substation.

BACKGROUND

Council District: I – Cm. Gilberto Gonzalez

Proposed use: The proposed use is an Animal Care Substation (Office).

- The facility will serve as an administrative and operational hub to support animal care services. Its primary function will be office-based. While it will be associated with the City’s animal care functions, the site is not intended to serve as a public shelter, adoption center, or boarding facility. Instead, its use is focused on administrative support with limited on-site activity, ensuring compatibility with the surrounding zoning and land uses. (See attached Narrative).

Minimum Zoning District Required for Proposed Use: R-O (Residential Office District) zoning district

Current Zoning District: The site is currently zoned as a R-1 (Single Family Residential District) zoning district.

Site: The site is occupied by vacant building.

Surrounding land uses: To the north of the site is residential uses. To the east of the site is residential uses, Triumph Public High School - Laredo South, and Lucy Avenue. To the south of the site is Sierra Vista Boulevard, vacant land, residential uses, and Nuestra Señora Del Rosario Catholic Church. To the west of the site is Ceniso Loop, Webb County of Sierra Vista, and residential uses.

Comprehensive Plan: The Future Land Use Map recognizes this area as Low Density Residential.

<https://www.cityoflaredo.com/LaredoPlanning/wp-content/uploads/2021/03/viva-laredo-city-of-laredo-comprehensive-plan.pdf#page=39>

Transportation Plan: The Long Range Thoroughfare Plan identifies Sierra Vista as a Minor Arterial and Ceniso Loop as a local street.

COMMITTEE RECOMMENDATION

The Planning & Zoning Commission in a 7 to 0 vote recommended **approval** of the conditional use permit amendment.

STAFF RECOMMENDATION

A Conditional Use Permit is intended to provide for those land uses where additional regulation is necessary to protect the property and surrounding area. It is primarily intended for property located in older section of the city and is intended to promote development and/or redevelopment of such property, which is consistent with the land use patterns of surrounding property.

Staff **supports** the proposed conditional use permit amendment for the following reasons:

1. The primary use of the location is for office use only. Therefore, it is not anticipated to be a nuisance to the surrounding area or neighborhood.
2. The proposed use meets the required parking requirement as per the Laredo Land Development Code Section 27.78.3.
 - Total parking spaces required for the proposed office = 4 parking spaces
 - Actual amount identified on site plan = 12 parking spaces
 - Therefore, the proposed site meets the required parking spaces.

However, staff does not support outdoor animal confinement. Outdoor kennels may be anticipated to have a negative impact to the surrounding neighborhood and area as it creates a noise and odor nuisance. The surrounding area is a primarily residential.

General Comments:

1. The approval of the conditional use permit does not guarantee the issuance of the building permit.
2. The use authorized by the conditional use permit is required to abide by all relevant municipal codes.

If approved, Staff suggests the following conditions

1. The primary use shall serve as an Animal Care Substation Office.
2. The Conditional Use Permit is restricted to Exhibit A, which is made part hereof for all purposes.
3. The kennel structure shall consist of a single large enclosure, as shown in the attached Exhibit A.
4. The kennel structure shall consist of a combination of indoor and outdoor enclosures. One (1) indoor enclosure and one (1) outdoor enclosure shall be considered as one (1) kennel.
5. The use of each kennel shall be limited to one (1) animal at a time, with a maximum of four (4) kennels permitted in total. An exception shall apply in the case of a mother with her litter, which will be considered as one (1) animal.
6. Animal confinement shall be restricted to the indoor enclosure. There shall be no more than four (4) animals on site, with the exception of a mother with their litter, which will be considered as one (1) animal.
 - As per Article III – Small Animals and Fowl, Section 6-42. (5) states, “It is unlawful for a person to keep five (5) or more small animals or fowl, in any combination thereof, or any number of male chickens, within one hundred (100) feet of any residence, structure or building used for human habitation or any other lawful activity, other than the person's habitation or business premises.”
7. Kennels shall be sized and spaced appropriately to allow the animal to stand, turn around, and lie down in a natural position.
8. The proposed use shall not house animals overnight. Long-term boarding or sheltering shall be prohibited on site.
9. The outdoor enclosure of the kennel shall be used for animal relief accommodations purposes only. Outdoor confinement shall be prohibited.
10. The kennel structure location shall not abut the residential property to the north.
11. The operating characteristics of the use shall not create a nuisance and the impacts of the use on surrounding properties shall be minimized with respect to noise, odors, and any other similar conditions.
12. The property shall remain staffed and monitored during operational hours to ensure proper animal care and safety, only if there are animals on premise.
13. Waste removal and soiled bedding shall be disposed of promptly and properly to control odor and diseases.
14. There shall be adequate ventilation systems on site.
15. Lighting of property shall be screened to avoid adverse impact on adjacent residential neighborhoods.
16. Landscaping shall be provided and maintained for the complete duration in accordance with the City of Laredo Land Development Code.

17. The owner shall provide an opaque fence or wall of not less than 7 (seven) feet in height along any side or rear property lines which abut or adjoin property containing a residential use or residential zoning district. Apartment complexes, residential condominiums or residential townhomes shall be similarly screened irrespective of which zoning district they occur in.
18. The establishment must make provisions to keep litter to a minimum, and to keep it from blowing onto adjacent streets and properties.
19. Signage shall be consistent with the City's Sign Ordinance.
20. On-site parking shall be provided in accordance with the City of Laredo Land Development Code.
21. The proposed use shall not exceed the "Occupant Load" as set forth in the Certificate of Occupancy with Occupant Load issued to the CUP business holder.
22. The proposed use shall, during all hours of operation, maintain, free from obstruction or impediment to full instant use in the case of fire or other emergency, all exit accesses, exits or exit discharges.
23. The proposed use shall undergo an annual Fire Inspection.
24. All permits, licenses, certifications and inspections required by the codes and ordinances of the City of Laredo shall be kept up to date and current including but not limited to: a. Food Manager License (annual), b. Food Handler's Permit (annual), c. Certificate of Occupancy with Occupant Load. Occupant Load being the approved capacity of a building or portion thereof.
25. Owner shall comply with Building, Health, Safety, Fire, Environmental, and all applicable codes and regulations as required.
26. The use authorized by the conditional use permit is required to abide by all relevant municipal codes.

Staff **supports** the application.

Is this change contrary to the established land use pattern?

There are no similar uses in the area. There are residential uses to the north, east, south, and west of the site..

Would this change create an isolated zoning district unrelated to surrounding districts?

No, the zone will not change.

Will change adversely influence living conditions in the neighborhood?

It may be anticipated to have a negative impact to the surrounding neighborhood and area.

Are there substantial reasons why the property cannot be used in accordance with existing zoning?

Yes. The existing R-1 does not allow for Animal Care Substation (Office) as intended by the applicant.

2. Supporting Goal(s)/Policy(ies)

Goal 7.1

“All residents have access to a variety of health services that support their well-being.”

Relevance:

The proposed Animal Care Substation supports community well-being through the intake, care, and placement of stray animals. The facility contributes to public health and neighborhood safety by addressing animal control and welfare needs within the community.

Policy 6.1.1

“Encourage development that is compatible with surrounding land uses and contributes to a cohesive urban form.”

Page 285

Source: *Viva Laredo City of Laredo Comprehensive Plan*

Relevance:

The proposal introduces expanded animal confinement activities within a predominantly residential area. While compatibility concerns exist due to surrounding residential uses and a nearby public high school, the Conditional Use Permit overlay imposes operational limitations, buffering, noise reduction, fencing, and screening requirements intended to mitigate impacts and improve compatibility.

Goal 1.1

“Encourage the efficient use of land and resources in Laredo through appropriate infill, redevelopment, and coordinated growth patterns.”

Page 45

Source: *Viva Laredo City of Laredo Comprehensive Plan*

Relevance:

The amendment represents the continued use and modification of an existing governmental/community service facility within an already developed urban area, supporting efficient land utilization and reinvestment rather than outward expansion.

3. Summary of Alignment

The proposed amendment to allow indoor and outdoor animal confinement at the existing Animal Care Substation demonstrates **moderate alignment** with the *Viva Laredo Comprehensive Plan*. The request supports broader public welfare objectives under **Goal 7.1** by providing enhanced animal care, intake, and placement services that contribute to neighborhood safety, public health, and animal welfare.

The proposal also aligns with **Goal 1.1** through the adaptive reuse and intensification of an existing public service facility within a developed area. Additionally, the Conditional Use Permit framework and accompanying operational conditions—including noise reduction measures, fencing, landscaping, limitations on outdoor confinement, and restrictions on overnight boarding—attempt to address compatibility concerns in accordance with **Policy 6.1.1**.

However, the Future Land Use Map identifies the area as **Low Density Residential**, and the staff report acknowledges that the expanded use “may be anticipated to have a negative impact to the surrounding neighborhood and area.” The proximity to residential neighborhoods, a public high school, and a church limits full consistency with the Comprehensive Plan’s compatibility objectives.

The proposal intersects with broader planning themes including **public safety, community services, animal welfare, and land use compatibility**.
