COMMITTEE RECOMMENDATION

The Planning & Zoning Commission in a 6 to 0 vote recommended **approval** of the zone change. However, one (1) commissioner abstained from the vote.

STAFF RECOMMENDATION

Staff **supports** the proposed zone change for the following reasons:

1. The proposed zone change is in conformance with the predominant Comprehensive Plan's designation as Neighborhood Mixed Use (All Except, M-1, M-2, B-4, AH, AN, FH, OG, FiH), which includes AG zoning districts.
2. The proposed site meets the minimum lot area requirement of 15,000 square feet for AG zone districts as per the Laredo Land Development Code, Section 24.77.1 Dimensional Standards. The property's lot area is approximately 58.709 acres (1 acre = 43,560 feet).
3. The proposed use is not anticipated to negatively impact the surrounding area or neighborhood.
4. The location of the proposed site is near a highway, which would accommodate the increase of traffic.

Staff **supports** the application.

AG. The purpose of the AG (Agricultural District) is to provide an area for agricultural pursuits protected from infringement of urban development.

Is this change contrary to the established land use pattern?

Yes. There are institutional uses near the site. However, a large portion of the site is surrounded by vacant undeveloped land.

Would this change create an isolated zoning district unrelated to surrounding districts?

Yes. This would create an isolated zoning district.

Will change adversely influence living conditions in the neighborhood?

No. it is not anticipated to have a negative impact in the surrounding rea or neighborhood

Are there substantial reasons why the property cannot be used in accordance with existing zoning?

Yes. The underlying zone does not allow for a cemetery as intended by the applicant.
