### COMMITTEE RECOMMENDATION

The Planning and Zoning Commission in a 8 to 0 vote recommended approval of the zone change.

## STAFF RECOMMENDATION

Staff supports the proposed zone change for the following reasons:

1. The proposed zone change is in conformance with the Comprehensive Plan's designation as Low Density Residential (R-1, R-1MH, R-1A, R-1B, R-S, B-1R, and R-O with exceptions\*), which includes R-1B zoning districts.

\*RO within a Low Density Residential is allowed with the exception of restaurants.

2. The proposed use is in character with the surrounding land uses. The site is predominantly surrounded by single-family residential uses to the north and east.

3 The proposed zone change meets the Laredo Land Development Code, Section 24.65.9, R-1B Single-Family High Density District requirement, stating R-1B zoning districts shall be for new subdivision developments.

Notice to the owner/applicant:

1. The approval of the zone change does not guarantee the issuance of the building permit and requires full compliance with all applicable municipal codes and regulations.

## IMPACT ANALYSIS

**R-1B.** The purpose of the R-1B (Single Family High Density District) is to provide for residential uses and those public uses normally considered an integral part of the residential neighborhood they serve. In addition, this district provides for the subdivision of single family residential lots with a minimum of 3,000 square feet.

**Is this change contrary to the established land use pattern?**

No. There are large areas of single-family residential uses to the north and east of the site.

**Would this change create an isolated zoning district unrelated to surrounding districts?**

Yes. The proposed zone will create an isolated zoning district.

**Will change adversely influence living conditions in the neighborhood?**

No. The proposed zone change is not anticipated to have a negative impact with the surrounding area or neighborhoods

**Are there substantial reasons why the property cannot be used in accordance with existing zoning?**

Yes. The existing zone does not allow for a single family high density residential uses as intended by the applicant.
