### **STAFF RECOMMENDATION**

Staff **supports** the proposed zone change for the following reasons:

1. The property meets the minimum lot width requirement of 65 feet for M-1 zone districts as per the Laredo Land Development Code, Section 24.77.21 Dimensional Standards. The property lot width is about 288 feet.
2. The property meets the minimum lot area requirement of 9,000 square feet for M-1 zone districts as per the Laredo Land Development Code, Section 24.77.21 Dimensional Standards. The property lot area is approximately 2.38 acres (1 acre = 43,560 feet).
3. The property abuts M-1 zoning districts to the east and west of the site.

Staff **supports** the application.

**M-1.** The purpose of the M-I Light Manufacturing District is to encourage the development of manufacturing and wholesale business establishments which are clean, quiet, and free of hazardous or objectionable elements such as noise, odor, dust, smoke or glare. Research activities are encouraged. This district is further designed to act as a transitional use between heavy industrial uses and other less intense and residential uses. ### **Is this change contrary to the established land use pattern?**

No. To the north, east, and south of the site are light manufacturing uses.

**Would this change create an isolated zoning district unrelated to surrounding districts?**

No. The site abuts M-1 zoning districts to the west and east.

**Will change adversely influence living conditions in the neighborhood?**

No. It is not anticipated to have a negative impact in the surrounding area or neighborhood.

**Are there substantial reasons why the property cannot be used in accordance with existing zoning?**

Yes. The existing R1 does not allow for industrial type uses intended by the applicant. The applicant did not specify the type of industrial use.
